

CORE BUILD

What to expect if we build your website?

This is not a cookie cutter solution... we are building your site from scratch to benefit your business.

A Stacked Site is a beautifully designed site along with a combination of well supported and reliable plugins that work seamlessly together within a WordPress platform. We'll keep everything updated, secure and backed up - so you can focus on your business.

We create websites that allow businesses to make any changes. With a simple drag and drop system you are fully in control of your website.

WHAT WE CONSIDER:

- What your site needs to achieve
- Your target market
- The selling points that make you unique
- What you are currently doing that is working
- What your competition does effectively
- Using effective elements from your competition
- Design elements from sites you find inspirational

WHAT YOU RECEIVE:

- A fully functioning website including forms and clickable links
- Built with an eye for design specifically for your business
- Aimed straight at your target market
- Mapped to a live domain
- Simple drag and drop editor so you can change anything yourself
- 90+ video tutorials allowing you to easily make changes later
- You can add unlimited pages and users

WHAT WE BUILD:

- The Home, About and Contact pages on your site
- A unique design with your branding and colours
- Incorporate your logo
- Link your social media channels
- Insert your content, if you provide it

WHAT WE KEEP DOING EVERY MONTH

- Daily backups
- We take care of your updates
- We upgrade your plugins and themes
- We monitor uptime
- We defend against hackers and malicious bots
- We stand by to support you

What are the costs?

\$400
ONCE OFF

Website Design and Development

Your website will be created from scratch to be effective for your business and aimed straight at your target market.

\$29
/MONTH

Website Hosting

Hosting is a necessary part of owning any website. Our hosting covers daily backups, website updates, performance tuning and security against hackers and malicious bots.

Free site... so what's the catch?

HERE'S A QUICK RUNDOWN OF WHAT'S INCLUDED:

- ✓ A full day of design and development to create your unique website featuring Home, About and Contact pages.
- ✓ Mobile friendly with beautiful design and functionality across all devices (beautiful on any device no matter how big or small)
- ✓ Smart coding, full SEO capability and super fast loading
- ✓ All the best in back-end technologies (updates and security are taken care of so you can focus on your business)
- ✓ Daily backups (while you sleep, we are taking backups)
- ✓ Fully customisable (a simple drag'n'drop editor allowing you to manage and update your site, add blogs, events etc)
- ✓ All the tools you need to make changes yourself (90 free tutorials built directly into your dashboard)

OF COURSE, AT THIS PRICE THERE ARE SOME THINGS THAT WE CAN'T DO:

- ✗ Content writing (it's up to you to pass this content over to us)
- ✗ Additional page designs (you can build off our templates or engage a designer for additional work)
- ✗ E-commerce sites (we can add these for a small price)
- ✗ Memberships and paywalls (we can add these for a small price)
- ✗ We can only install plug-ins that are on our approved list

The above excluded services and more can be added to the build.

Simply add them to your cart.
